

# GOOD CHILDCARE = GOOD JOBS

Dear Erie County Executive Chris Collins,  
As a taxpaying constituent of Erie County I demand that the public assistance to 200% low-income families for child care be restored. As a member of a faith community I find it unacceptable and immoral to remove assistance to persons of low-income when the majority of them are working, taxpaying citizens.

- **I do not support the closing of small businesses in the form of child care programs.**
- **I do not want those willing to work to be forced onto welfare.**
- **I want all people to have the right to work and the right to have children cared for.**
